

Councillor Peter McDonald Duxford Division & Ward:
District Councillor for Parishes of Duxford, Hinxton, Ickleton, Babraham, Pampisford.
County Councillor also for Foxton, Fowlmere, Shepreth, Thriplow, Heydon, Chishills, Whittlesford

Parish Council Report Jan 2024

South Cambs District Council

Green Business Programme

South Cambridgeshire District Council has launched the Green Business Programme, an 18-month project to help local businesses go green, working in partnership with neighbouring local authorities. Grants are available to help businesses reduce their carbon footprint, reduce energy costs and work towards Net Zero. Cost of living support The District Council is urging residents who may be in need of support through the cost of living crisis to check they are claiming all the benefits they may be entitled to. The council is also offering extensive advice on reducing energy bills and other available help, including food banks. Please do get in touch if you need any more information.

'Cambridge 2040' update

On 19 December, the Rt Hon Michael Gove, Secretary of State for Levelling Up, Housing and Communities, unveiled updated plans for the Government's 'Cambridge 2040' vision, with proposals for "northwards" of 150,000 new homes around Cambridge. A joint statement from our local authorities said, "We note ... that the number of new homes ... has come down from 250,000 to 150,000, but this is still substantially more than the over 50,000 homes we have identified as needed ... – a number which will already be incredibly challenging to bring forward. We are ambitious for high quality sustainable, green growth but can't stress enough how vital it is that Government supports us to tackle the issues that will otherwise act as roadblocks to sustainable growth." The District Council continues to stress the need to address water supply, public transport, community infrastructure and affordable housing in negotiations with the Government. We are still awaiting clarity over how they might support the development of the 50,000 homes required to follow Government policy in the Local Plan, let alone any larger number.

Four Day Week Trial Update

We are now a year into the council's four-day working week trial, which is due to run until the end of March 2024. The trial was designed to test whether a four-day working week could improve the council's value for money to taxpayers, primarily by reducing its reliance on temporary staff for roles that are better filled with dedicated permanent employees. So far, the results have been very promising. Since the trial began, over half of 23 key roles previously covered by temporary agency staff have been filled by permanent staff. Jobs that had previously attracted no interest when advertised are now attracting a strong pool of applicants, allowing the council to recruit the best candidates. This has saved the council hundreds of thousands of pounds and is helping to build a more talented and efficient workforce. The direct savings from filling all of these roles would be around £1million per year. The council's performance has not suffered during the trial, and the focus on continuous improvement has been maintained. The trial still has 3 months left to run. The overall effects of the policy will be assessed at the end of the trial period, and a decision on whether or not to continue will be made by Full Council.

Councillor Peter McDonald Duxford Division & Ward:
District Councillor for Parishes of Duxford, Hinxton, Ickleton, Babraham, Pampisford.
County Councillor also for Foxton, Fowlmere, Shepreth, Thriplow, Heydon, Chishills, Whittlesford

In December I reported that we were facing a £23m gap in funding for 2024/25 as a result of inflation and other factors. This has now been closed to c.£2m.

The revised proposals focus on sustaining social services, continuing to provide free school meal vouchers for eligible children during holidays, progressing the council's commitment to pay the real living wage to people providing adult social care, and prioritising highways and cycleways maintenance across the county. However, even with a proposed council tax rise of 4.99% – 2% of which will be dedicated to adult social care services – the combination of demand for services, inflation and the ending of some government grants will still leave a £2m gap in the 2024/5 budget.

Included in the proposals for the coming year are for the council to:

- Invest £57 million to sustain children's and adult social care services.
- Further the Council's commitment to the Real Living Wage, which has increased to £12ph outside London, to take account of the Government uplift of the legally enforceable Living Wage, being paid by adult care providers.
- Prioritise £3m to continue to provide holiday food vouchers for all children eligible for free school meals, despite the government support being likely to end in the next financial year.
- Invest £2.2m to deliver other anti-poverty initiatives – such as support to make sure that vulnerable people are claiming all the welfare benefits that they are entitled to.
- Put £1.3m into delivering more accessible libraries to support vulnerable communities.
- Prioritise investment of £23m into making highways, footpaths, and cycleways safer – on top of a recently announced government allocation of £2.3m. This will be to deliver improvements which both repair and prevent potholes, deliver improved drainage schemes, and reinstate cycleway maintenance and weed clearance.
- Put additional funding into schemes for people experiencing mental health issues to prevent them reaching crisis, particularly focussing on younger people.

The proposals include an increase of council tax by 4.99%, the maximum permitted by Government before a public referendum is needed – with a total of 2% of this increase dedicated to adult social care services across the county, and £17.6m of identified additional savings – from areas such as:

- moving to LED streetlights which are set to deliver £1m in energy savings each year.
- £1.5m across the next three years from rationalising the council's office accommodation.
- more than £2m from reviewing the highest cost children's placement costs, and home to school transport routes – to bring children closer to home and reduce travel time.
- £0.5m from driving down the amount of bad debt.
- reviews of income raised by permits and parking charges are also proposed to raise just under £1m.
